FIVE CENTS

CHAMPIONSHIP GAME TOMORROW NIGHT AT "Y"

REGISTRATION DAY FOR SUMMER SCHOOL JUNE 22

Many Government Clerks Expected to Increase Customary Enrollment

TUITION REMAINS SAME

In spite of the war situation, which has caused the closing of several of the Summer Schools throughout the country, the George Washington Summer School will begin its third year under the direction of Dean William Carl Ruediger, of Teachers' College. Registration day will be June 22 and instruction will begin on June 24. Final

Many New Courses Greatly Widen the Scope of Curriculum.

SCHEDULE ANNOUNCED

All the courses offered in the Summer School are of College grade, are given by the regular members of the Faculty and represent essentially all the subjects found in the Department of Arts and Sciences. A list of the new courses is given below, together with changes in the old ones, and finally a complete list of all the courses.

Classes carrying two semester hours of credit will meet five times a week for six weeks and those carrying three semester hours of credit will meet six times a week, for seven and a half weeks. As it is particularly desirable to meet the needs of office people classes scheduled for eight o'clock will begin fifteen minutes before eight and close twenty minutes before nine if it is desired by the students registered.

Examinations in the six-week classes will be held Friday and Saturday, August 2 and 3, and in the seven and one-half week classes on Thursday and Friday, August 15 and 16. No final examinations may be given before those dates. Examinations in all other classes will be held

when the work has been completed. Among the new courses are several interesting ones in literary appreciation offered by Dean Wilbur and Professor Croissant and a course in International Relations of the United States by Professor Hill. This last is particularly important considering the present position of the United States in the family of nations.

Dean Wilbur will give a course in American Poetry, in which he will make special studies of American ideals, as revealed in the work of the American poets.

Professor Croissant will offer two new courses: One in the Drama Since 1890; the other in the Elements of Literary Criticism. The course in Literary Criticism was given by Professor Croissant in the University before 1910, and he has an interesting and valuable set of materials in hand for it.

In Education all three of the courses given will be different from those given last year. Mr. Ryan will cover a course in Educational Measurements in which he will cover the standard of educational scales and tests that have been advanced for elementary and secondary school subjects. The scales and tests will be discussed from the theoretical side and each student will be given practice in their use. There is at present no finer movement of education than that of accurate measurements obtained.

Continued on Page 3, Col. 3.

Requests Hatchet To Design Service Flag

President Stockton has requested the Hatchet to draw up a design for a Service Flag for the University which will be secured if possible by the end of the year. This flag will embrace all of the departments.

At present, as far as the President can ascertain, there are 459 men in the service who have gone in in the past two years. This figure does not include the faculty members who are serving or the alumni.

What the design of the flag will be or who will get it has not been decided. It is probable that the University will get the flag and if the Hatchet submits a design it will more than likely be accepted.

A committee from the Women's University Club consisting of Miss Mattie McGrew and Miss Loyelle Callahan has been appointed to look into the question of a service flag, and it was suggested that the W. U. C. should give the flag to the school.

"SAME OLD STUFF" SAYS THE EDITOR

Tell Us Something New About the Council Dance to Be Held Tonight.

TALK BY MURPHY

"Can't the Hatchet give us a top column on the front page this time for the second Student Council Dance at the Cairo? It's going to be tonight and we need the advertisement because the surplus profits will be devoted to the Athletic Deficit."

"But, Gene, what is there to say? Have you any new stuff that has not already gone in?"

"Why, sure. It's going to be a regular get-together meeting for men and women from every branch of the University, a regular gathering of the clan, and—"

"Yes, but that has been in every write-up you have had in the Axe. Give me something new, original."

"Well, the party is going to be absolutely informal, in dress and in the spirit of the occasion. No starched breast-plate shirts will be permitted, and the girls—"

"I know, but we have had that in time and time again, too. Now come thru with something entirely new."

"Let me see. Provision is being made to stop the sale of tickets early enough so that the hall will absolutely not be too crowded for comfort, and it—"

"Yes, we've heard that before. Are you going to limit the sale to seventy-five like you did last time and then let in some ninety couples? No, that won't do."

"Say, the programs are buff, printed in blue to correspond with our college colors. We're going to dance from nine to twelve to Forrest Grimes music, the best procurable. And at the request of Mr. Hoover we are going to economize and not serve any—"

"I know all that, Gene, and it has all appeared in the Hatchet three or four times and every man on the campus knows it all by heart. What we demand is news, new news, different news, something for our readers to see for the first time. Isn't something going to happen that has not happened before, something that will attract the weary eye of the blase student? You've got one more chance."

"Well, the feature of the evening will be a speech by Coach Murphy of the basketball team. You know, he is giving his services entirely without compensation to drill into our team a little real pep and knowledge of the game. I say entirely without compensation, because, as you know, he is receiving no money, but in addition to that he is not even being shown the appreciation of the college, by their attendance at the games. He isn't after appreciation for his own efforts, of course, but wants support because it will put fight into the team. He is going to speak to the dancers and give them the cold, hard facts about the chances our team has to whip C. U. tomorrow night for the championship of the league. He's going to tell them just how spiritless, cold and unappreciative they have been of the team's hard and faithful work. He's going to give it to them good, and it will be great entertainment for those whom it doesn't apply to."

"You get the top of the middle column, Gene."

"Thanks, Helnie."

OVER TWENTY-SEVEN DOLLARS ADDED TO FUND IN PAST WEEK

Most Loyal Students in University Sending in Contributions Steadily.

DEFICIT IS NOW \$259.30

Small Amounts Welcomed By Committee—Send Money to Elmer Kayser If No One Approaches You.

Contributions by the most loyal students of George Washington are sending the athletic deficit down to the zero mark with great speed. It is interesting to note that the majority of the contributions received to date are by the very students who are supporting every other school activity to the utmost, and that a number of them are by students who subscribed to the basketball guarantee fund.

Victor Kebler, chairman of the campaign committee, reports that the response is gratifying, but that many seem to have a fear of giving small contributions. He said that although large contributions are greatly appreciated, the small contributions of ten and twenty-five cents are fully as well come.

The freshmen are by far the most willing supporters of the campaign. Continued on Page 2, Col. 3.

GEORGE WASHINGTON'S BIRTHDAY SEES MID- YEAR GRADUATION

Dr. Munroe Speaks Forcibly on Education After the War

"We are going thru' the greatest proportional depletion of our schools and colleges, since the Civil war, yet never before has the public interest in and concern for education been so acute as now," was the opinion of James Philippey Munroe, vice-president of the federal bureau of vocational instruction, who was the principal speaker before the graduating class of George Washington University at the exercises held at 11 o'clock in the assembly hall of the Arts and Sciences Department Building, 2023 G street, on February 22.

Rear Admiral Charles Herbert Stockton, U. S. N., retired, presided at the exercises and distributed the diplomas to the nineteen graduates. President Stockton also delivered a brief address.

Invocation was said by Rev. James McBride Sterrett, rector of All Souls' Church, and formerly Professor of Philosophy in George Washington University. Musical numbers were given during the exercises.

Mr. Munroe has supervision over reconstruction work for crippled soldiers, which will be undertaken, as at other hospitals, at the Walter Reed Hospital in Washington.

Mr. Munroe said in part: "Education, after the great war, will no longer be, I believe, a spendthrift in itself and a praiser and promoter of

Continued on Page 2, Col. 2.

G. W. U. AND C. U. TO PLAY OFF TIE

Witt, Halstead, White, Boteler and Underwood Will Be the Starting Line-up.

STATE VS. GALLAUDET

Good Fighting and Fast Basketball Will Mark the Last Game Of Our Quint This Season.

Tomorrow night will see the crucial test of our basketball team, when it meets Catholic University at the Y. M. C. A. at 8:00 to decide the championship of the Intercollegiate League.

Our squad has lost only one game of the five league games it has played, and that to Catholic University, while the Brooklanders have been defeated this year only by the husky quint from Gallaudet. This leaves the decision at a tie of four victories and one defeat for both G. W. and C. U.

Coach Murphy has been bending all his efforts for the last three weeks toward building up an organization with the speed, durability and fight necessary to defeat C. U., and he said in an interview, "We'll beat that bunch as sure as fate."

Close observers from our camp who occasionally watch the practice have noticed a remarkable improvement in

the team work of the squad and feel very hopeful that the result of the titanic struggle tomorrow will be in favor of G. W.

According to the dope, Witt and Halstead will be the forwards at the start. Witt is fast and elusive, always turning up on the floor where the enemy least expects him. He is a cribber of the first order and is most difficult to stop once he has a fair start. Halstead, while not in the best of condition, is fast and is sure to play till he drops. He, too, plays all over the floor, being good at covering when the ball is in possession of the enemy, and making many an uncanny shot.

Ross White will start at center, where he has been doing a good deal of fancy jumping for some time. Ross does not split the jump fifty-fifty with his opponent, but as a rule gets the tap-off. He may also be depended upon to cover when our team loses the ball.

Charlie Boteler and Gene Underwood will start as guards, provided Charlie's nose will permit and also Gene's ankle will permit, which they probably will. These two men put up a strong defense and may be counted on to break up many of C. U.'s best advances. In addition to this, the two guards alternate on the offensive with telling effect.

On the sidelines will be Erdall, whose knee is in bad shape, and Kebler, Roberts, Herron and others of much merit, who will fill in good style the places of the regulars should they be called on.

The team has been laboring under a formidable handicap because it has been built out of absolutely raw material, none of the men ever having played together before, but now it is showing signs of smooth running and will put up a fast, baffling, passing game that C. U. will find harrassing.

Last Saturday night the team was surprised and defeated on its home grounds by the fast quint from John Hopkins Medical School. The score at the end of the game was 30 to 19 in favor of the visitors, who had an organization of varsity men from three of the large institutions of the East.

Their attack in the first half was

CHOICE CUT FLOWERS FLORAL DECORATIONS

900 FOURTEENTH STREET N. W. WASHINGTON, D. C.

new to our squad and enabled them to pile up a good lead. During the half Erdall was taken out because of his knee and Underwood was compelled to leave the game because he again sprained his foot. After the intermission our team came out fresh once more while the Baltimore aggregation was "all in." During the second half we outscored them two to one and had the time been the full twenty minutes instead of eleven the final outcome might have been different.

The spirit of the team in coming back so strong in the second half is indeed to be commended.

According to Manager Allen, "the finances of the team are in very poor condition largely due to the practical absence of student support." A large representation tomorrow night may retrieve past absences somewhat.

Another trip may be made to Emmitsburg, Maryland, on Monday to play Mount St. Mary's, and it is hoped that no blizzard will prevent this game as it did the first one. If this trip is taken it will materially rehabilitate the treasury because of the tidy guarantee offered.

Tomorrow night will decide the results of the year's labors of the team and the student body will miss a most interesting scrap if it fails to show up to see the team crowned with success.

LECTURES ON FOOD CONSERVATION TO BE GIVEN THIS SEMESTER

In answer to a request from the United States Food Administration that the University should install three courses on the relation of food to the war, particularly for the women students, a plan which is the only possible one, considering the fact that the students are divided between the day and evening classes has been put into effect. In this way Deans Monroe, Ruediger, and Wilbur, and Professors include lectures on the necessity of food conservation, its relation to the economic situation and its chemical properties as related to food value in their courses.

The syllabus sent to the University from the Food Administration each week will be sent to these professors for use in their course. The three Food Administration courses which were suggested were: Food and the War, Fundamentals of Food and Nutrition in Relation to the War, and a laboratory course in the Use and Conservation of Foods.

\$10 Prize for Best Essay on Sociology

Are you taking sociology? If so, here is an opportunity waiting for you.

The Chi Omega Fraternity offers a prize of fifteen dollars (\$15) to the co-ed senior in the graduating class who writes the best essay on any subject in sociology, chosen with the approval of the professor of the subject.

This essay must be submitted to the three judges, who are the professor of sociology, the dean of Columbian College and a third person chosen by the other two, before May 1.

The fraternity offers this prize in order to encourage interest in this important subject.

Two \$10 Prizes Offered by Pi Phi

The Pi Beta Phi Sorority is offering two prizes of ten dollars each. One is in the field of Education and one is in Political Science.

The first is open to all students registered in the courses in Education. A committee selected by the Dean of Teachers' College will award the prize to the student submitting the best essay on a subject pertaining to this line of work. The subject is to be chosen by the Dean of Teachers' College, and essays must be submitted on or before May 15.

The second prize of ten dollars is offered for the best essay on a Political Science subject, and is open to all students registered for these courses. The subject of the essay is to be chosen by the Professor of Political Science. A committee selected by this professor will award the prize, and essays in competition must be in his hands on or before May 15.

HARSH CAPTURES THREE POINTS AT JOHNS HOPKINS

G. W.'s contingent at the Johns Hopkins Track Meet last Saturday night gathered 3 points in the open events under unfortunate circumstances.

Ray Harsh, running in the 880 yard event, gave the scratch man, one of the best middle distance runners in this section, a run for his money passing him on the home stretch taking first place in fast time, but the judges asleep in the stand, failed to see the finish and sent the exhausted runners around another lap, Harsh increasing his lead by about 20 yards. Taking advantage of the befuddled situation, the scratch man squealed to the judges that he won the race and the muddled judges took his word for it and awarded him first, an example on the part of that runner of unsportsmanlike conduct and low moral standards seldom seen in athletics. Washington papers give Harsh credit for winning the race.

Scott found the going too fast in the 220 and could not compete in the 440 because of the unnecessarily long drawn out program.

The result was a considerable disappointment to both G. W. men as this is the only indoor meet of the year in this section.

INSTRUCTOR GIVEN LEAVE OF ABSENCE

At a meeting of the Board of Trustees of George Washington University, held February 19, 1918, George Valentine Whittle, M. E., Instructor in Naval Architecture, was given leave of absence from March 1, 1918 to the close of the current academic year and the following appointments were made:

Henry Grattan Doyle, A. M., to be Assistant Professor of Romance Languages; William Darrach Halsey, A. B., Assistant Professor of Mechanical Engineering; Arthur Frederick Johnson, M. E., Instructor in Naval Architecture; Assistant Professor of Naval Architecture; Clay Luther Jennings, Instructor in Naval Architecture; Ralph Cohen, M. D., Instructor in Anatomy; Bertram Groesbeck, M. D., U. S. N., Instructor in Pathology; William Binford King, Instructor in D., Instructor in Surgery; Harry L. Gosnell, Assistant in Pathology; Charles D. R. Halstead, Student Assistant in Chemistry; Charles Tuck Bassett, D. D. S., Associate Professor of Dental Ethics; John Winslow Taylor, D. D. S., Associate Professor of Prosthetic Technics; Patrick V. Gallagher, D. D. S., Instructor in Oral Prophylaxis; Charles Albert White, A. B., LL. M., Lecturer on Dental Jurisprudence; Webb Watson Wyman, D. D. S., Instructor in Crown and Bridge Work; Sterling V. Mead, D. D. S., Instructor in Radiography.

WASHINGTON'S BIRTHDAY SEES GRADUATION

Continued from Page 1.

extravagance. It will be on the contrary, an education conserving the pupil's time, his individuality and his special aptitude and talents. The war will almost have been worth while if thru the lessons it will teach our complex educational systems come to realize that they must make themselves really efficient by using their plants to capacity by supervising the whole training of the child, in school and out; by making use of the immense educative power both of real work and of real play; by teaching those who are to be the fathers and mothers of the future how to make homes and how to fulfill their obligations to society.

"And I confidently believe that the time will come, after the hurts and sorrows of this great war have been in some measure healed, when we in the United States will, to use Lincoln's fine phrase, 'solemnly rejoice' that by this cataclysm we were shaken to our very foundations, and that out of those deep and catastrophic national emotions were born the supreme men and women who, I am certain, will issue, directly or indirectly, from this world-wide conflict, and who will make this beloved nation of ours not only the leader, but also the great exemplar of mankind."

The graduates follow: Bachelor of Arts, Sum Nung Au-Young, China; Elizabeth Aileen Davis, District of Columbia; Harry Kryger Harrington, District of Columbia; Margaret Helena Harvey, District of Columbia; Peter Hildner, New York; George Henry Partridge, District of Columbia; Talma L. Smith, Texas; Eleanor Winifred Stanton, Rhode Island; Warren Jennison Willis, Minnesota. Bachelor of Arts and Diploma in Education, Mary Evelyn Steger, District of Columbia. Bachelor of Laws, Andrew Jackson Banks, Ohio; Ernest L.

CLASS IN HISTORY OF PAINTING PAYS VISIT TO ART GALLERY

Students in Dr. Brigham's class in the History of Painting, George Washington University, celebrated Washington's birthday by a visit to the Walters Gallery in Baltimore. Leaving town in the morning they went first on arrival to the new Court House, where a fine series of American mural paintings may be seen, by Blashfield, La Farge, and C. Y. Turner, also one by the French artist, Jean-Paul Laurens. After lunch the pictures in the Walters Gallery were enjoyed.

Perhaps the most interesting feature of the day was seeing a reputed Raphael "Holy Family," which offers a fascinating problem to critics and art students to determine whether it is an original or a fine copy. This very beautiful group, representing the Blessed Virgin and Child, with St. John, St. Anne and St. Joseph, is distinctly in the style of Raphael, and the present holder believes it to be an original. There is another exactly similar group, of which this may be a replica, in Munich, in the Alte Pinakothek, known as the "Holy Family of the House of Canigani," painted about 1506. It is of the same size as the one in Baltimore, except that the latter is a trifle wider, which permits of some slight details which seem to be cut away in the Munich example. The picture in Baltimore belongs to an unsettled estate, and may be seen at 815 North Mount Street. It is valued by the present holder at \$150,000.

OVER TWENTY-SEVEN DOLLARS FOR FUND

Continued from Page 1.

they having given more than any other class. This is gratifying because the freshmen were in no way connected with the athletic situation of last year, but are willing, nevertheless, to help straighten out affairs before President Stockton leaves.

Chairman Kebler wants it pointed out that this fund is entirely separate from the basketball guarantee fund pledged in the fall. Should basketball come out with a deficit, the guarantee fund will be drawn on unless enough money is secured in the athletic deficit campaign to wipe out the deficit and still leave a balance large enough to pay a basketball deficit. This, however, is unlikely, for there is little chance of the athletic deficit being entirely wiped out before the close of the basketball season.

Kebler also urges a large attendance at the Student Council Dance at the Cairo tonight, for the larger the proceeds from these dances, the smaller will be the amount to be made up by individual contributions.

The method employed by the committee in securing contributions is to canvass the University and ask students offhand to help support the cause. Half of the contributions have been secured in this way, but half of them have been entirely voluntary. The letters sent to the fraternities and sororities have reached their destinations, and results are already evident. Pi Beta Phi Sorority has contributed seven dollars, and Phi Mu five. The committee has not the slightest doubt that every fraternity in the school will add its name to the list of contributors.

If there is any one who desires to make a contribution and is unable to find some one to take it, it can be sent in directly to Elmer L. Kayser, Graduate Manager of Student Activities, who is responsible for the funds collected.

The contributions made since the last issue of the Hatchet are:

WITH THE GREEKS

Interfraternity Association.

At the meeting of the Interfraternity Association held at the Phi Sigma house last Sunday it was decided not to try to hold a big smoker this year.

In place of a big smoker Eugene Underwood has offered the Sigma Chi house for one of smaller dimensions at which the basketball team will probably be entertained. The plans for this will be worked up in the near future and announced in the Hatchet.

Sigma Nu.

An impromptu musicale was held at the house last Saturday night. The impromptu was O. K., but Gene Cole most emphatically knocked the music from the musicale with his one-lung "E flat" voice.

All Sigma Nus and their friends will attend the basketball game tomorrow night. At the termination of the game they will adjourn to the house where an "after-the-game" dance will be held.

It gave great pleasure to the members of Delta Pi to house the Delta Dance given by the members of Sigma Kappa on the afternoon of George Washington's birthday.

Kappa Alpha.

Kappa Alpha held its George Washington dance at the chapter house on Saturday, February 23. The service flag was dedicated on that evening and several interesting speeches made by prominent Kappa Alphas.

The chapter enjoyed the visits the past week of Brother Jones from Leland Stanford, Calif., Brother Harn from University of Florida, Brother Fenton from California University and Brother Marvel Wilson from University of Delaware.

Brother Elmer Doelman is now a Lieutenant in the Ordnance Department, which brings up the chapter's stars in the service to 47.

Brother Bass from Mississippi is now living at the house.

Brother Earl Parmelee left last week for Camp Lee, Petersburg, Va.

Phi Chi.

Phi Chi held a dance at the chapter house on 13th street on February 14.

Brother Dr. Boyce read an interesting paper at the chapter house Saturday evening, February 23.

Kappa Sigma.

Alpha Eta takes pleasure in announcing the pledging of G. William Creswell of Elkton, Maryland, Graduate Studies.

A well attended dance was held at the chapter house on February 21. Many alumni were present, as well as rushees, and all had a most enjoyable time at the most successful dance given this year.

Bro. Alvin Fjeld leaves Thursday to accept a position in the Diplomatic Service as private secretary to the American Commercial Attache at Christiania, Norway. Bro. Fjeld has a brother in the same service at Christiania. Brother Dieserud is now stationed at Christiania, Norway, in the Consular Service.

Bro. Emil Harja, who has been living at the house, left last Wednesday to assume the duties of Lieutenant in the Signal Corps, at Vancouver Barracks, Washington.

Theta Delta Chi.

I. A. Chapman and Del Sprague both attended the Theta Delta Chi Founders' Corporation dinner held in New York last Saturday night.

Brother Haverer, Chi Deut. '02 paid a visit to the house last Sunday and was given a rousing reception.

A recent letter from Mike Wingate, well remembered by A. & S. students since his characterization of Juliet in last year's vaudeville show, reported his safe arrival "Over There."

Harry Hough, Chi Deut. '19, has arrived at the Naval Aviation School at Boston Tech and writes that the work is going finely.

Extensive plans have been started for the annual anniversary banquet which will be held the twenty-sixth of next month.

Phi Sigma Kappa.

Brother Cliff Whyte has enlisted in the Ordnance.

Brother Kelly of Union University has been visiting the chapter for a short time.

Brother Willcox of Stevens Institute is visiting in town, and frequently drops in at the house.

A very successful dance was held at the chapter house on February 22, and Washington's birthday was commemorated in royal style.

Sigma Phi Epsilon.

The members of the Sigma Phi Epsilon Alumni Association enjoyed a big dinner and party at the chapter house Monday evening.

A smoker was held Saturday night with the usual jazz music and other forms of entertainment.

Another brother from the Ohio State Chapter stopped off at the house while seeking military service.

Lieutenant Tully C. Garner is with the 63d Infantry at the Presidio of San Francisco.

Chi Omega.

Miss Elizabeth Davis is now attending school at the Sargeant Physical Training School, Cambridge, Mass.

Miss Mary Martini, Gamma Chapter, Tallahassee, Florida, is now living in Washington.

Miss Sarah Southerland, Gamma Chapter, who this year is attending Goucher, visited the local chapter when in Washington last week.

Pi Beta Phi.

Pi Beta Phi announces the pledging of Dorothy Horne, C. C. '18.

Miss Gertrude Brown was entertained in the rooms Monday night.

Sigma Chi.

A letter from Charlie Valaer, late of Columbian College, brings word that he is now in London on special duty and tells of a large reunion of Sigs in the Service in Paris.

Lloyd Freese recently blossomed out in a lot of gold braid following the issuance of his commission in the Navy.

The last basketball game was a hard one on our men, Charlie Boteler receiving a much battered nose, and Gene Underwood spraining his foot again, which will probably keep him out of the C. U. game tomorrow.

Epsilon takes pleasure in announcing the pledging of Charles C. Scott, Columbian College, 1921.

Personals

Columbian College.

"Better late than never" quoth "B. A." Stanton as she arrived just in time for her diploma at the mid-year graduation exercises.

Spring fids are all in style—every one has one by now. Men's straw hats are to appear in the very near future.

Certain students of Columbian College—both masculine and feminine—are anxious for the ice to leave the river. Canoeing is so attractive in the early spring.

A card was received from G. T. Smallwood, who left us after February. He is in Elyria, Ohio, as an aeroplane inspector.

All Columbian College is urged to come out and root at the basketball game on Saturday. Do your bit. The team is doing theirs.

Contribute to the Athletic Deficit Fund. It will enable us to clear up an old debt and strengthen the good name of the University. Let Columbian College lead in this.

Rumor has it that "Cunning" Nelms had a date last week. They do start rather young these days.

K. Herron enjoys her Economic lectures very much these days. If you don't believe it ask her.

Law School.

The Law School Library recently received a gift of about three hundred books on law, including some original editions of old English Reports from Samule B. Swayze, who received his L. L. B. in 1908.

Bates M. Stovall '17, is now sergeant major of the 500th Aero Squadron and is stationed with the squadron at Ebert's Field, Leno, Ark.

College of Engineering.

S. B. Michael, E. E. '19, has been transferred from Rock Island Arsenal to Camp Dodge, Iowa.

The Engineering Society is arranging a trip to the Bureau of Standards in the near future. Watch for the date!

A loyal bunch of Engineers held cheering practice in the mechanics laboratory Wednesday night and they will lead the cheering at the game Saturday night.

Notice.

There are several hundred copies of a very timely editorial, which recently appeared in the "Outlook" on the "German-Russian Peace," in the University Library. These copies were sent to the Library by the Outlook and may be had free of charge if application be made to the assistant in charge before they have all been given out.

MANY NEW COURSES IN SUMMER SCHOOL

Continued from Page 1.

Professor Ruediger will give his course in the Principles of Education and a course in the matter and methods of Secondary Education. In the latter course he will take up the principles underlying the effective presentation of all the leading High School Branches.

In the department of Geology Doctor Resser will offer a course in Geology in place of Mineralogy given during the two preceding Summers.

An interesting feature in German offered by Professor Schmidt will be a course in Conversation and rapid and easy reading. The aim will be to develop practical control over the language.

Professor Doyle is again offering the courses in French and Spanish covering both first and second year work. In French he will make it a point to stress the military phase of the subject, if the students so desire.

In History Professor Alden will offer the second semester's work from his course in American History, taking the subject from the Inauguration of President Jackson.

A course in Modern European History, aiming especially to set forth historical antecedents of the present European war, will be offered by Mr. Kayser.

The course in General Psychology, which was given by Professor Ruediger during the past two Summers, will, the coming Summer, be offered by Professor Richardson.

The work in lecture and laboratory Physics will be given by Professor Brown, who will make his first appearance as a Summer School Instructor in 1918.

Schedule of Courses.

8:00-9:00.
S11—English Composition, 2 credits, Dr. Brigham.
S26—American Poetry, 2 credits, Professor Wilbur.
SXXXI—Educational Measurements, 2 credits, Mr. Ryan.
S3a—Second-Year Spanish, 3 credits, Professor Doyle.
9:00-10:00.
S1—Psychology, 2 credits, Professor Richardson.
SXXXI—Art, 2 credits, Dr. Brigham.
S21b—Principles of Education, 2 credits, Professor Ruediger.
10:00-11:00.
S3—Logic, 2 credits, Professor Richardson.
S1a—Economics, 2 credits, Professor Kern.

S25b—Secondary Education, 2 credits, Professor Ruediger.
S29—Modern Drama, 2 credits, Professor Croissant.

11:00-12:00.
S22—Sociology, 2 credits, Professor Kern.

S32—Literary Criticism, 2 credits, Professor Croissant.
SXXXII—Philosophy, 2 credits, Professor Richardson.

5:00-6:00.
S1—Chemistry, 6 credits, Professor Swett.

S3—Geography, 2 credits, Dr. Resser.
S6a—Second-Year German, 3 credits, Professor Schmidt.

S20b—American History, 3 credits, Professor Alden.
S4b—Trigonometry, 2 credits, Mr. Hodgkins.

S1a—U. S. Government, 3 credits, Professor Hill.
S1a—First-Year Spanish, 3 credits, Professor Doyle.

5:00-7:00.
S2—English Rhetoric, 4 credits, Professor Wilbur.

S2a—Physics, 2 credits, Professor Brown.

6:00-7:00.
S1V—German, 3 credits, Professor Schmidt.

S31—European History, 3 credits, Mr. Kayser.

S4a—College Algebra, 3 credits, Mr. Hodgkins.

S3a—Physics, 3 credits, Professor Brown.

SXXXII—International Relations, 3 credits, Professor Hill.

S21a—First-Year French, 3 credits, Professor Doyle.

6:00-8:00.
S2—Geology, 4 credits, Dr. Resser.

6:00-10:00.
S2—Chemistry, 4 credits, Professor Swett.

S3—Chemistry, 4 credits, Professor Swett.

S7—Chemistry, 4 credits, Professor Swett.

7:00-8:00.
S4a—Second-Year French, 3 credits, Professor Doyle.

Gross Registration Larger Than It Has Been for Years

The gross registration in the first year of the Law School is larger this year (155) than it has been since the collegiate year 1913-14. The net registration of this class is smaller, however, than it has been the last few years. The second and third year classes are smaller both in gross and net registration.

Give Your Support and
the Championship is Ours

A long hard season will end tomorrow night when the championship of the Intercollegiate League Basketball League will be decided at the Y. M. C. A. It has not only been a hard season for the home team but it has been a discouraging season. Every time the team has gone on the floor this year they have fought hard and without any support from the student body.

If the team wins tomorrow night they will deserve all of the credit that anyone can give them. If they lose it might well be said that the student body is in great part responsible.

It is the last time that a plea will be made to the student body to help the team out. You have been begged, and pleas have been made without number. It has been enough to destroy even the staunchest G. W. man's faith in the student body. If you are not out tomorrow night it will destroy every vestige of that faith.

The last time that G. W. U. went up against C. U. they lost. Why? Because they had no encouragement to do better. That game made the first place in the league a lie. It might well be said that the student body was the cause of the loss of that game. You have gotten the team in a hole and it is up to you to pull them out.

Last Saturday night the team put up a game that any college might be proud of. When the J. H. M. quintet was leading with a big margin in the second half G. W. came back and scored 10 points to the opponents 5. They will put up as good, if not a better game tomorrow night if you are there to help them.

Come on out tomorrow night and show your spirit and pep. Get behind Jake Lenovitz and draw out the C. U. supporters. At the last C. U. game C. U. cheered G. W. Lets have enough men there tomorrow night to cheer for C. U., after we have defeated them. It was done last year and can be done again this year. If you go to George Washington University and don't support her you have no right to keep on. Don't be a slacker in any sense of the word.

You Fraternities and Sororities, if you have meetings tomorrow night postpone them and make sure that all of your members are at the game. If they don't come, fine them. If that doesn't do any good paddles are still to be had and every fraternity house has a good big tub and the water is running cold. Be sure that your men and women are at the game.

To the Greeks.

A call has been sent to every Fraternity and Sorority to send in contributions to the Athletic Deficit Fund. Letters have been sent out to every house. The contribution that is asked for need not be more than each organization can stand.

PI Beta Phi and Phi Mu have already answered that call and have sent in their money. They should be followed very soon by the other Fraternities and Sororities.

Don't delay too long about this but

take it up at your next meeting. Send in your money before the next issue of the Hatchet and get the name of your organization on the honor roll published each week.

You are dependent on the University for your success. You are not called upon very much to repay what you owe to the University. Don't ignore this call and when you answer it do so in a generous way.

Don't forget that the Council is running a dance tonight for this same purpose. Spend a dollar for a pleasant evening and help the University along. After you have sent in a contribution in the name of your organization see to it that your members subscribe as individuals also.

GIRL'S TEAM TO
MEET MADEIRA AT
EPIPHANY TOMORROW

Epiphany gymnasium will be the scene of the first real game of the G. W. U. girls' team. They meet the Madeira team on this floor tomorrow afternoon.

Loyal rooters may make a record for themselves by appearing at three o'clock to cheer for the girls and finishing the day at the Y. M. C. A. where the boys' big game will be won by us, we have heard from reliable sources.

The girls have games scheduled for every Saturday in March. Mark them on your calendar pad.

This team needs the encouragement that a good cheering section can furnish. Miss Martha McGrew, the G. W. U. cheer specialist, declared. She is making plans for some new songs and yells for use in this series.

One of Sunday Party
Speaks to 150 Girls

Miss Kinney, the woman student worker of the Billy Sunday Party, spoke to 150 girls of George Washington University on "The Power of the Christian Religion," in the chapel of the Arts and Science Building, Wednesday, February 20.

Miss Kinney pointed out that just as we work hard in the gymnasium

for physical power, and study hard for mental power, just so we must work hard for spiritual power. The attendance was the largest at any chapel exercise this year.

After the talk lunch, consisting of salad, sandwiches, cocoa and ice cream, was served in the Women's University's rooms. Miss Lucy Burlingame had charge of the arrangements for the luncheon, and much of its success was due to her.

Cherry Tree Almost

Ready for Printer

The Cherry Tree is almost ready. Part of the book is already in the hands of the printer, and the rest of the material will follow in a few days. It is going to be an exceptionally good-looking book with a blue cloth cover and a cover design stamped in buff, and three hundred and twenty pages of heavy white enamel paper. There is less printed matter in the annual than usual, but more snapshots and illustrations than ever before.

Anyone who wants a book should subscribe immediately so that the number of books to be bound may be decided upon.

Re-elected President of
Philosophical Society.

Professor Edward Elliot Richardson, Ph. D., was recently re-elected President of the Society of Philosophical Inquiry of Washington. This society, which recently celebrated its twenty-fifth anniversary, is the only Philosophical Society outside of those in the Universities that meets regularly. At the meeting when Prof. Richardson was re-elected President he read to the society a paper on Spinoza.

Scholarship Luncheon Planned
Early in April for Girls.

The Pan-Hellenic Association of G. W. U. will give the annual scholarship luncheon on the first or second Saturday in April. The girl having the highest average for the first semester in each of the four classes in Columbian College, the same number in Teachers' College, the Pan-Hellenic delegate from each sorority having the highest average, the upper class girl and the freshman in each sorority with the highest average, making twenty in all, are to be the guests of the association. A committee, consisting of Margaret Prentiss, Elsie Broward, and Annie Cardwell,

Underwood's Statement
On Election Protest

In order to bring out more clearly than I have been able to do before the facts on which I based the contest of the election of Senior Marshal I desire to say that at last I have been able to secure the lists used by the Election Committee in checking up the votes cast. I find that their list contains nineteen less names than the one secured for me from the office of the Dental School during the week of election, and as a result of a canvass made of the senior Dental students I am informed that fifteen of that nineteen voted for both Lowry and Shepard. This would materially change the result of the election and I can not yet see why a bona fide senior should be disenfranchised because his name is not on an antiquated list, such as the one used by the Election Committee, which was secured some time before the Christmas holidays.

In addition I can not yet see why the Election Committee, which has stated that it holds the ballots as its guarantee of the validity of the election, should oppose so strongly a recount.

It is, however, beyond my power to take the matter up again in the Student Council because it has been once defeated and a motion to reconsider must come from one who voted on the prevailing side. I am not inclined to think that any one of those who voted against the recount can be won over so far as to move to reconsider.

EUGENE UNDERWOOD, JR.

DEMOCRACY AT WAR.

BY HAMLIN GARLAND.

Our Flag's Abroad!
Let railway stocks now bleed like
widow's sons
And money vaults give up their
hoarded gold
As freely as the farmers give their
grain.
Let dollars be less sacred than the
artist's eyes
And ingots less than sculptors' cunning
thumbs—
America's at War.

All, All for War.
Let capital no longer order brawn to
die,
Let wealth and pride touch elbow in
the ranks,
Let taxes fall against ancestral parks
As now they fall against the small
titled fields
Of farmers toiling to maintain a
hearth.
Let bankers give, not lone, their
monstrous stores—
Democracy's at War!

Hatchet or Hand Saw;
Plum or Cherry Tree?

When asked if he would change the name of the Hatchet to the Hand Saw, Heinie Ravenel, editor of the paper indignantly said no. The reporter then asked why. "If that clipping that you have is true," said Heinie, "I lose all faith in education right now. If George Washington used a Saw and not a Hatchet to cut down a plum tree instead of a cherry tree then the truth of all that I have learned in school and college is in question."

The clipping referred to is one that recently appeared in a newspaper and states that George really used a hand saw in his operation and that the victim was a plum tree and not a cherry tree. The truth of this statement is based on an entry in what is supposed to be the journal kept by Augustine Washington, who was George's father. The entry in the journal establishing the truth of the above statement is dated March 1, 1839, and is as follows: "A fine day and warm. This a. m. I found my best young plum tree spoiled with a saw. I thought it was a vagabond, spoke of it at noon. My son George owned up to the deed. First I was excited and minded to whip him but did not. He was truthful and repentant. He cut it with my small Hand Saw."

Jimmie Hornaday was interviewed on the subject but he says he will stand pat too. He says that he doesn't like plums anyway, but is very fond of cherries.

\$25 SPHINX PRIZE.

The Sphinx will give a \$25 prize to the Freshman receiving the highest grades for the first semester. The prize will be awarded at the Davis Speaking Contest which will be held early in the spring.

The prize of \$25 carries out the Sphinx work of increasing scholarship and stands as an incentive to every Freshman to do good work.

Economic efficiency is necessary to win the war.

Save coal—every shovelful counts. This is a people's war now—Your war and mine.

"It is more precious that this America shall live than that we Americans should live."—Franklin Lane.

"Lafayette, we are coming."

"Save coal to keep the factories running."

"Every man, woman and child can help—how are you helping?"

INCREASED INTEREST
IN SCIENCE COURSES
SHOWN BY WOMEN

Suffrage—is that the cause? The War—Probably that is the reason. Possibly it is the trend of the times, or is it simply what may be termed Progress of Civilization that is causing women to take up so many activities that only a few years back would not even be thought of. In line with the many smashing of precedents by women is the fact that women are taking up sciences in George Washington University nowadays to such an extent that it is causing the faculty to pay marked attention to them.

In commenting upon the increased enrollment of women in the science courses, Dean Munroe stated that a year or two ago no attention whatever was paid to women students, for there were no calls for admission into the science courses by them, but now the science courses are even replacing courses of history and sociology.

Another noticeable feature disclosed by Dean Munroe is that chemistry is the most popular subject in the school of graduate studies. Fifty-two students were enrolled in 1916-1917 in this course, which leads the course in education, next in popularity, by thirteen students.

The following table shows the kind and number of topics which attracted most women in 1916-1917 in the school of graduate studies, showing clearly how the sciences are popular with the women students:

English	14
Education	9
Zoology	8
Chemistry	5
History	4
Botany	4
Sociology	4
Bacteriology	2

EXCHANGE.

Georgia Tech has launched a campaign to raise \$500,000 for the completion and equipment of the Power Plant, and the erection of a building to house a Research Department.

Cornell has taken action to close college earlier in the Spring. On November 15th the faculty decided to petition the trustees for the following changes in the schedule: That the Christmas vacation be shortened to eleven days, Founders Day, three days of Block week and the entire Easter vacation be omitted, college to close four weeks earlier in the spring, and Commencement day to be on May 22

instead of June 19 as was originally stated.—Delaware College Review.

Knox College was the first college to report 100 per cent enrollment in the American Red Cross.—Ex.

Vassar is now added to the list of women's colleges which will send a reconstructed unit to France. A Smith unit is already abroad and Wellesley's will probably be there sometime in the spring.—Ex.

CALENDAR

Friday, March 1,
Student Council Dance.
Saturday, March 2,
G. W. U. vs. C. U. at the Y. M. C. A.
Girls' Team vs. Madeira at Epiphany.
Tuesday, March 5,
Student Council Meeting.

The girls in the dormitories of the University of Ohio, when the supply of coal ran out last week, resorted to dancing as a means of keeping warm until the fuel difficulties should be alleviated.—Ex.

Has Beens.

Here's to the girl that used to be nice,
Who would stop for a chat and a smile,
And not run their fair fingers around your lapel
To hunt for your safety the while.

Here's to the girl who paints not the cheek,
Nor plaster nor trellis the hair,
Nor stealthily sniff of your shirt front to seek
The fragrance of motor oil there.

Here's to the girl who used to be game
To go to a 15 cent show,
Not searching a business directory's leaves,
To find if your dad had some dough.—Pelican.

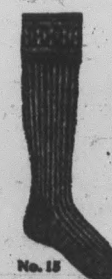

Which Are You?

There are two kinds of men in this life. There is the one who goes out and gets things done despite obstacles; and the one who comes back with a fine, perfectly logical reason for not getting the thing done.—Kansan.

My parents forbade me to smoke.
I don't!
Nor listen to a naughty joke.
I don't!
They made it clear I must not wink
At pre-occupied girls, nor even think
About intoxicating drink.
I don't!
To dance or flirt is very wrong.
I don't!
Wild youths chase women, wine and song.
I don't!
I kiss no girl—not even one;
I do not know how it is done.
You wouldn't think I had much fun.
I don't.
—Kansan.
